S SERIES

A group-catering dining table for schools,
public institutions and companies.
An all-in-one table with seats attached.

S2 SERIES (Excellent Procurement)

S1 SERIES (Procurement MAS Product)

ISO 9001 / ISO 14001

특허

Pick the **colors** that suit your space.

7 backrest seat colors, 8 round seat colors, 12 side cover colors and 4 tabletop designs. Songin's color system lets you mix them freely to match a space. All seats are made of impact-resistant resin that is sturdy and fade-resistant.

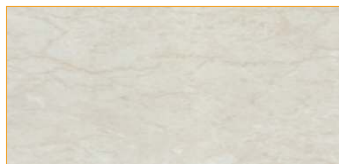

* Printed colors may differ slightly from the actual product.

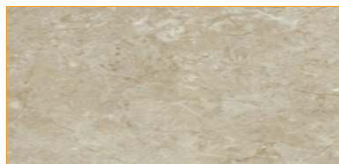

Custom Options

S1 · S2 Series can be made to order with your choice of tabletop pattern, backrest and seat colors, and side cover color (S2 only). Freely combine 4 tabletops, 7 backrest colors, 8 seat colors and 12 side cover colors to suit your school or cafeteria.

Urethane edges on all 4 sides prevent injuries

Waterproof coating resists stains

Clean all-in-one design · Built-in seat stop

Stainless legs for durability and rust resistance

Seat stop makes cleaning easy

10-year A/S guarantee

● Rotation Stop

- Seats can be held outside the table, making it easy to pick up dropped items and clean underneath; the return function is restored after use for the convenience of users and staff.

● Auto Seat Return / UP&DOWN Function

- Seats tuck away automatically after use. The post lowers when seated and rises automatically after use, keeping the seat balanced and the user safe. A constant gap from the floor reduces noise and makes cleaning easy.

● Stainless Legs / Leveling Feet

- Round stainless pipe legs prevent rust and corrosion, and wide feet protect the pipes during wet cleaning and disinfection, keeping the cafeteria hygienic.

● Urethane Edge Tabletop

- Shock-absorbing urethane on all 4 edges removes sharp corners. Unlike groove-inserted edges, it is molded onto the top in a special process: seamless, moisture-proof and impact-resistant.

Patent No. 10-2624319

Mobile stool table with rotation control, manufactured and inspected to the Excellent Procurement Product specification (per KS G 4009 · 4203 · 4215) function and performance standards.

● Function & Safety

Seats return on their own, cleaning made easy

Pull out the seat to sit; stand up and it slides back under the table by itself, slowly and softly with minimal noise. Pull it all the way out and it stays put for easy cleaning.

Safe to sit and stand

A spring pulls the seat back gently, never abruptly. Children can use it safely without bumping their legs.

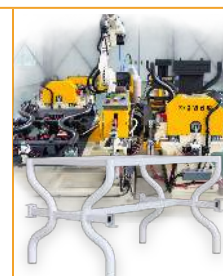

Lowers when you sit, rises when you stand

The seat lowers slightly for firm support when you sit and lifts off the floor when you stand. Easy to clean, with no dragging noise.

Built to stay sturdy

Rotating parts are pinned so they never loosen, and the robot-welded frame has strong joints. Passed a 50,000-cycle open/close test.

● Performance Tests Per KS G 4009 · 4203 · 4215 / KCL
